---

### Care Instructions

#### DO NOT:

- \*Use any type of rubber or plastic bathmats*
- \*Set items on surfaces that may trap moisture*
- \*Allow submersion for extended periods of time, or dripping or leaking faucets*
- \*Use abrasive or harsh cleaners*
- \*Use dyes, hair coloring or bath oils*
- \*Use excessive heat above 350 degrees or open flame.*
- \*Drop any sharp object or cut on surface*
- \*Remove and replace drain flanges*
- \*Allow indelible ink or indelible paint, nail polish removers or any type of solvent on surface*
- \*Allow caulking to crack, lift or separate from surfaces*
- \*Allow damaged areas to be left unrepaired*

### Cleaning Instructions

- \*Carefully read cleaner instructions, and make sure it is mild Liquid non-abrasive cleaner.*
- \*Soft scrubs are recommended*
- \*Leave cleaning liquid on surface for only a few minutes to initially loosen soiled areas*
- \*Use a sponge to continue to loosen soiled area.*
- \*Rinse cleaner off with clean water and pat to dry*
- \* Patting dry the surface reduces cleaning, while extending life and luster of surfaces.*
- \*Clean and dry surface is the best for life and luster of surface*

### Other Instructions

- \*Do not replace shower doors for at least 14 days unless otherwise instructed*

*\*General decay of plumbing fixture item can occur over time and Advanced Tub may have to remove them. Advanced Tub will not be responsible to replace worn out items.*

*\*Before using drain opener always remove any standing water. Use a funnel to deliver a liquid drain cleaner directly into the drain. Use drain cleaner sparingly and do not allow to boil out and contact the refinished surface.*

*\*Refinishing work requires protection of surrounding surfaces by using masking paper and tape occasionally when removing tape from painted or wallpapered surfaces damage may occur. Removal will be done as carefully as possible, but if damage occurs Advanced Tub will not be responsible for repainting, touchup painting, or replacing wallpaper.*

*\* After refinishing has been completed, do not allow the air temperature surrounding the refinished object to go below 65 degrees for 72 hours.*

*\*Don't enter the area where refinishing has been completed for at least 24 hours or as instructed.*

*\*Since every situation cannot be addressed, please follow other instructions given by service technicians.*

### Recommended Cleaners

- \*Scrubbing Bubbles*
  - \*Lysol Bathroom Cleaner*
